Q: What are the Goals of the Passport Program?

A: The key goals of the Passport program are to:

- Foster independence by building on individuals' abilities and developing community participation, social and daily living skills.
- Increase opportunities for participation in the community with supports that respect personal choices and decision-making, and help people achieve their goals.
- Promote social inclusion and broaden social relationships through the use of community resources and services available to everyone in the community.
- Help young people make the transition from school to life as an adult in the community.
- Support families and caregivers of an adult with a developmental disability so they can continue in their supportive role.

"Since our daughter has been attending CAB we have witnessed her growth and independence in the areas of culinary skills, physical endurance, and social skills. The wonderful staff and the programs offered have provided her with a positive learning environment, recreational activities, and many opportunities for socializing with peers.

She is eager to go to CAB everyday and we are confident that she will continue to show progress as a participant in such a wonderful program. Thank you CAB!"
